## Local and General

Mr. F. Aylesworth, Inspector of  
Schools in the Olds Inspectorate,  
visited our local school on Wednes-  
day last, owing to the very inclement  
weather the attendance of scholars  
was very poor.

Christmas is drawing very near  
and we begin to think of what we  
shall wear, or what we shall eat, or  
what good Old Santa is to put in our  
stockings. Before you think of going  
out of town for any of these com-  
modities may a visit to any of our  
local stores and see what they have  
provided to cater for your wants.

By the time our readers have  
glanced over their papers this week  
we shall be called upon to cast our  
vote. Both candidates have paid us  
a visit and stated their views on the  
subjects at issue, quite a few of us  
have received cards soliciting our  
votes, at Bishop's Hall. We are  
informed that this is an error, as  
the voting will take place in the  
Fire Hall.

In last week's issue we omitted  
the names of Mr. S. H. Bray and  
Mr. G. Fox from the board of  
directors appointed at the annual  
meeting of the Society.

Ed. Hunsdickson is renewing old  
acquaintances. Spending a couple  
of weeks with his old friends in  
town.

Merrick Thomas has moved his  
drug business to the premises next  
door to the Chronicle Office.

# DISTRESSING RHEUMATISM

How many people, crippled and lame from rheumatism, owe their condition to neglected or incorrect treatment! It is the exact combination of the Purest Cod Liver Oil with glycerine and hypophosphites as contained in

that has made Scott's famous for relieving rheumatism when other treatments have utterly failed. If you are a rheumatism sufferer, or feel its first symptoms, start on Scott's Emulsion at once. IT MAY BE EXACTLY WHAT YOU NEED.

Scott & Borne, Toronto, Ont.

## Sheep Raising

The Scarcity of Sheep in Canada Should Be Remedied

In Manitoba sheep raising has become a craze. The minister of agriculture of that province is conferring with the Ontario minister of agriculture to see if he can get a supply of sheep for breeding purposes. At first it was thought there would be plenty to spare in Ontario; but it turns out that Ontario has hardly more than she needs for herself. In the United States the decline in the industry has been even greater than in Canada. Now that Canadian farmers are in the mood to go into the industry more largely we should think the best source of supply would be Australia. True, there is a great lack of tonnage for Australian wheat. But in view of the rapidity with which sheep multiply exceptional means might be taken to bring them from the country in which there is a superabundance to one in which they are at a premium.—Hamilton Spectator.

**The Proven Asthma Remedy.** Since asthma existed there has been no lack of much heralded remedies, but they have proved short lived and worthless. The ever-growing reputation of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicines which no other can approach. It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

## Worth Remembering

From President Wilson's Letter to the People

The object of this war is to deliver the free peoples of the world from the menace and the actual power of a vast military establishment controlled by an irresponsible government which, having secretly planned to dominate the world, has now carried out without regard either to the sacred obligations of treaty or the long-established practices and long cherished principles of international action and honor; which chose its own time for the war; delivered its blow fiercely and suddenly; stopped at no barrier, either of law or of mercy; swept a whole continent within the tide of blood—not the blood of soldiers only, but the blood of innocent women and children also; and of the helpless poor, now stands halted, but not deterred, the enemy of four-fifths of the world.

"Tea and Coffee Interfere with Digestion"—

says a well known authority.

Many who use tea or coffee, not knowing that it aggravates stomach troubles, could still enjoy a delicious hot table beverage and escape harmful effects by a change to the wholesome, pure cereal drink—

## Fit Men Only to Go to Front

Canadian Soldiers in England Divided Into Fourteen Stages of Physical Condition

Soldiers in training for active service, or fully trained and held in reserve, are most carefully inspected as to their physical condition. Only men in the category (technically known as "A-1") may be withdrawn from the reserves to serve in the trenches in France; however, pressing may be the call from the front for reinforcements.

Canadian troops in England are divided into fourteen categories, or stages of physical condition, as follows: A, five categories; B, three categories; C, three categories; D, two categories; and E, one category. Thus, when the call comes for reinforcements at any time the men in thirteen of the categories are not available. However, pressing the call may be, all the men to go forward must be drawn from category "A-1."

**A Remedy for Bilious Headache.**—To those subject to bilious headache, Farmer's Vegetable Pills are recommended as the way to speedy relief. Taken according to directions they will subdue irregularities of the stomach and so act upon the nerves and blood vessels that the poison in the head will cease. There are few who are not at sometime subject to biliousness and familiar with its attendant evils. Yet none need suffer with these pills at hand.

**One Way to Beat Bugs.**—A farmer says the Ridgewood Dominion claims to have found a way for potato bugs by ten years' experimenting in Colorado. His plan is to plant corn or two flax seeds in each hill of potatoes. He says that the bugs will eat them every time, and that in ten years he has been thus successful in raising potatoes where others have failed.

**The cheapness of Mother Graves' Worm Extirpator** puts it within reach of all, and it can be got at any drugist's.

**Time to Step Forward.**—Hon. W. R. Motherwell, minister of agriculture, says the time has come for the daybreak of Saskatchewan to take a step forward. For the last ten years he has been thus successful in raising potatoes where others have failed.

**Worth Protecting**

A good article is worthy of a good package. A rich, strong, delicious tea like Red Rose is worth putting into a sealed package to keep it fresh and good.

A cheap, common tea is hardly worth taking care of and is usually sold in bulk.

Red Rose is always sold in low sealed package which keeps it good.

**MUST CURE GERMANY**

Peace Must Involve the Destruction of the German Government

The military autocracy, which still holds Germany by the throat, is not in fact prope terms of peace which the autocrats allow would be willing to discuss without paying way for its own abdication. It would have to make public confession that its leadership had failed. It would have to confess responsibility for a catastrophe whose extent the German mind still refuses to realize. Any peace which the non-German world can consider worth while must involve the destruction of the existing German government. For when the government grows so weak that it is unable for a real peace, involving a renunciation of all its plans of conquest and spoliation, the German people will themselves turn and rend it. It can have no function any longer in a Germany cured of the militaristic mania.—New York Tribune.

**eloquence Appreciated**

Copies of President Wilson's memorable address to congress embodying a new declaration of world freedom, which will remain one of the historic utterances of the world, have been presented to the teachers (over 2,000 in all) in the London elementary and secondary schools through the generosity of Sir Charles Wakefield, late Lord Mayor of London.

The address has been printed on the back of the paper, in two colors, and is a form suitable for exhibition and preservation. Sir Charles Wakefield has also presented copies of the address to the schools of the native city of Liverpool.—London Daily Chronicle.

## The Ford is Now Considered a Necessity for Large-Scale Farming

**W**HETHER you are doing work on a large scale, or a small scale, you endeavor to reduce the delays of your farm machinery to a minimum and save time. A Ford will assist you in doing these two things.

If your tractor runs short of gasoline, the Ford will bring a few cans right to the spot and greatly shorten the delay. Or if you need a repair, or some new plow points, you can "run" the errand to town and back in one-third the time it would take with a horse and rig.

With a Ford you can supervise the work on your ranch much more thoroughly. You can get your mail and supplies oftener, and take more enjoyment out of prairie life. A Ford will do all these things and many more, and at the same time save you money.

The strength and endurance of the Ford has been proved the world over. It is equal to the western roads and the distances.

The Ford is the car for the Western Farmer.

## SUPPORT UNION GOVERNMENT

Liberals and Conservatives are United

The People Must Unite to

## Win the War

A Laurier-Bourassa Victory means deserting our boys in the trenches for over a year, throwing up our hands and quitting! Don't shout "Kamerad" under the Referendum proposal. Come out and fight for Union Government.

## Make No Mistake

IF LAURIER WINS:

- (1) Canada will send no more reinforcements to the front, which practically means quitting the war and placing the country in the same class as Russia.
- (2) The French-Canadians who have shirked their duty in this war will be the dominating force in the Government of the country.

ARE THE ENGLISH-SPEAKING PEOPLE PREPARED TO STAND FOR THAT?

It is because the French-Canadians have not done their duty that Conscription had to be resorted to. The French-Canadians have made it perfectly clear that they do not like the war and are against Canada, participating in it further. Some of them even go to the length of saying that the soldiers should be brought back from the front. The Nationalists are demanding that the men who have been enrolled under the Military Service Act be disbanded and sent back to their homes. To secure the Nationalist support Laurier-Liberal candidates in Quebec have signed the following pledge:—

"I, the undersigned, candidate in the Federal Elections, undertake by these presents, if I am elected, to demand the immediate suspension of the Military Service Act, 1917, and of all its effects until Canadian electors have pronounced by way of plebiscite; and should the majority of the electors condemn it, that it be considered as null from its origin and that in consequence all conscripts be disbanded."

"I also undertake to vote against any Government which should refuse to adopt the above announced policy."

## Germans Have a New Poison Gas

Germany has a new gas, according to advices from Paris. It is a bit more devilish than any of its predecessors because it is more insidious. Gas masks are small protection against it, because it penetrates the clothing and sets up an irritation in any spot on which the skin has been rubbed or broken. Then it spreads. The new gas is delivered either from hoses, in the old fashion, or from burning shells, in the new. It cannot be detected by the sense of smell, and often an hour or more passes before the unfortunate discover they have been "gassed." The subsequent treatment is rendered more difficult by the fact that the methods which experience has shown are best adapted to the asphyxiating gas, are positively dangerous with the "sulfure d'ethylene" which is the new form. Yet it is often difficult to distinguish between the two forms.

With the ingenuity that distinguishes them, the Germans use both gases in the same sector. The new gas directly attacks the mucous membranes.

"In the autopsy we are often able to peel off the mucous membrane as one would an old glove," said one surgeon. "Sometimes it breaks and curls up like the shingles on an old roof."

The gas clings to the clothing, so that subsequent wearers may be attacked if it is not thoroughly cleaned. The nature of the new weapon may be indicated by some of the directions given to army surgeons for treating those injured by it: "Strip them at once of all possible and battle in a solution of soapy water. This should be done at the dressing station, if possible."

### The Flowing Bowl

Crossfield, Alberta,  
Dec. 10th, 1917.

Editor of The Chronicle, Crossfield.  
Sir,—I see a notice in your paper that a Comedy Drama is being prepared by a number of young folks in Crossfield. As one who knows the play well—perhaps you will allow me a little space in your valuable paper, to express my views on the efforts of the young people, and also to recommend all who can to see this pretty, interesting and amusing drama. The Flowing Bowl in not—as some may judge by the name—a heavy temperance play; although a strong temperance lesson may be taken from it. The story is simple: A miner, returning with his gold from the Californian mountains—while on a drunken spree—imagines he has killed his little daughter, and without waiting for proofs—flees the country, and becomes a boatman at the coast.

Some twenty years later he is recognised by a party of seaside visitors, and after some fear of the consequences, he reclaims his daughter, and the conviction that he is a murderer vanishes. This story is so cleverly interwoven with wit and humor that an audience is held in interested expectation from the beginning to the end of the play.

Major Fitzpatrick, a true son of Erin—with a strong weakness for fair play—refuses to allow reverses in the business of gambling to make him miserable, and although he knows his own weakness is the master of strong drink, he objects to being called a "miserable" sot. Jessie Morris, a terrible torment, plays havoc with the heart of Charlie Wilkins, who becomes Spanish Malador—hero-sailor-writer-comeby; and would become boot-black, scullion, or anything else at the beck and call of his "wilful beauty"—as a test of affection—to which the incorrigible Miss Jessie always subjects her admirers. Charlie wins out by becoming the nice little con-boyish hero she desires. I must not forget to mention Pete—a black boy aged sixty—the Major Domest of "deso far" partments."

These four characters keep the audience in a ripple of laughter all the time, relieving the heavier scenes just the right points to prevent the play from becoming too melodramatic.

In summing up I would say that the "Flowing Bowl" is one of the best for amateur performance. The drama in it is excellent—the wit and humor is clean and sparkling, and the whole play, as it is written might be performed in the most refined drawing room, or, as it has been, in the most select theatre.

During the Chautauqua we heard a lot of the inconsistencies of the English language, and the difficulties foreigners encounter when striving to overcome the intricacies and "bairns" etc. Now, I would suggest that a Library, Debating and Dramatic Society, in every one of our small towns is the best means of making the English language a par language. There is no better language—when it is spoken correctly, but when

it is spoken as it is in the song entitled, "English as 'tis spoke in Bonnie England," then it is horrible.

Trusting I have not taken too much of your valuable space, and again urging all who can to see The Flowing Bowl, thereby encouraging the performers.

I am, Sir,

Respectfully yours,  
A LOVER OF THE DRAMA.

## Goats Thrive Well in Alberta

For the first time on record a number of goats were recently offered for sale on the Calgary market, where they were the centre of interest. They were sent by a farmer whose place is situated between fifty and sixty miles northeast of Calgary. This farmer brought a small herd of Angora goats to Alberta some three years ago, and is well satisfied with the results he has had with them.

## The No Indemnity Cry

Information has reached Washington that the Germans are removing the textile looms and machinery from the mills in southwestern Belgium. They are said to be destroying what cannot be shipped into Germany. Will the most enthusiastic Socialist or pacifist say that any peace could be just which did not require the despoliation to restore these wrecked factories, that Belgian workmen may again have the means of earning their living when the war is over?—Buffalo Express.

## Like Father, Like Son

A Birmingham professional man, forty-one years of age, has been posted as a private to a unit in which his son, until recently a high school boy, is a second lieutenant. He has several times had charge of the platoon of which his father is a member on the barrack square. Father salutes his boy like the rest of his comrades. He declares, however, that a sly little wink has occasionally passed between them.

## Helping to Finance

Canada Making Regular Credits to Great Britain

The minister of finance announces that Canada intends to advance to the imperial treasury \$25,000,000 a month so long as the war lasts to keep the munition business in operation and cover other war purchases, such as cheese, etc. Canadian exports of cheese, chiefly for the army, exceed in value \$40,000,000. Since the outbreak of the war Canada has supplied the British government in cash and securities \$445,000,000.—Wall Street Journal.

## The Wide Margins

Food and Victory to Be Gained by Co-operation of All

Herbert C. Hoover, U.S. food administrator, says that shortage of the world's food supply has caused the growth of a vast mushroom of speculation and unnecessarily high cost of living. Last year the farmers received \$1.50 per bushel for their wheat but this a few drops directly upon a tender corn or callus. Instantly the soreness, disappointment, then shortly you will find the corn or callus so loose you can lift it right off.

## WOMEN! IT IS MAGIC! LIFT OUT ANY CORN

Apply a few drops then lift corns or calluses off with finger—no pain.

Just think! You can lift off any corn or callus without any pain or soreness. A Cincinnati man discovered this either compound and named it freezone. Any druggist will sell a day bottle of freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness, disappointment, then shortly you will find the corn or callus so loose you can lift it right off.

Freezone is wonderful. It doesn't eat away the corn or callus, but shrivels it without even irritating the surrounding skin. Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't freezone, tell him to order a small bottle for you from his wholesale drug house.

## Bully for British Columbia

British Columbia may well point with pride to her mineral development. The annual report of her mineralogist shows that more than half a billion dollars has been produced during the 65 years since mining began.

The value of metalliferous minerals produced is \$365,560,715; coal and coke, \$10,529,215; building materials, lime, \$27,215,254; gold, \$11,559,364; silver, \$36,415,124; zinc, \$7,212,759.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy cases of pain, because they promptly kill the worms that cause the pain, and thus the suffering of the child is relieved. With so sterling a remedy at hand no child should suffer an hour from worms.

**An Impudent Offer**  
Nominal independence, a powerless king sitting handcuffed and gagged on his mournful throne; German commercial control, German possession of the railroads and the ports a German army dominating the country and garrisoning its towns and forts. This is what Germany means when she speaks, as speak she will, of restoring Belgium. Chancellor Michaelis has the impudence to talk as if she had spoken of it already, to waver at the refusal of the English and French to consider so handsome an offer, and to pretend that nothing stands in the way of negotiation—Belgium being thus disposed of—except "Allace-Lorraine."—New York Times.

Minard's Liniment Cures Diphtheria.

"You and Rafferty have quarrelled!"  
"We have," replied Mr. Dolan.  
"Can't you become reconciled and talk it over?"  
"I don't think so. Every time we talk it over the conversation leads up to a worse fight than we had before."—Washington Star.

## American Donation to Canadian Red Cross

One of Uncle Sam's Soldiers Shows a Splendid Spirit

It is sometimes said that there is no sentiment in business, but it is time that, in these days particularly, sentiment plays a very large part in business. And when sentiment tends to draw allied nations still closer together it is, perhaps, the very best kind of business.

An experience with this kind of sentiment came to the notice of the head department of the Canadian Pacific railway at Calgary a short time ago. Mr. W. G. Fraser, of the aerial training station at San Francisco, had a balance of fifty dollars coming to him on a land transaction with the company. As Mr. Fraser is now lined up with Uncle Sam's fighting forces he desired that the money should go to some patriotic purpose and wrote the C.P.R. asking them to turn it over to the Canadian Red Cross. He might, of course, have had it paid direct to him, or to some American patriotic society, but he elected that it should go to the Canadian Red Cross, which a few days ago received a check for the amount.

## The Ubiquitous, British

"Where are the British?" asks the German agent of the gullible American. They are here. They are holding their own line in France and Belgium, rendering aid to the French line by helping Italy batter her way to Trieste, cleaning Germany out of Africa, furnishing the bulk of the armed army in Macedonia, fighting their way through Mesopotamia, aiding the Russians in Gallipoli, and with the Germans and Turks in Palestine. There is no nation among the allies whose troops are so ubiquitous.—New York Times.

## Canadian Toy Imports

Over Two-Thirds of Them Last Year Came From United States

Canadian imports of toys for the fiscal year ended March 31, 1917, show that out of a total of \$90,066, worth \$62,324 came from the United States. Japan ranked next with \$179,465, while of the United Kingdom and about \$20,000 from France.

As compared with the fiscal year ended March 31, 1916, this was for American toy-makers of \$172,054, for Japan of \$147,300 and for the United Kingdom of about \$17,000. France, however, suffered a \$7,636 loss.

The most important articles imported, it is said, are dolls, with mechanical and miscellaneous toys ranking second.

## China's Definition

To us the real interest in unearthing the Kaiser's speech is historical. History has the laugh on Wilhelm, for the very Chinamen who were expected "never again to look askance at any German" have already looked askance at 70,000,000. They did not wait a thousand years. Frictionless has not prevented their entrance into the world war. In China, where things are generally upside down and wrong end to it, they cherish the definition: "Frictionless. That which does not frighten." And we may add that the definition has met with a cordial reception the world over.—Chicago Tribune.

## THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day it is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic, and unless baby's little stomach is kept right the result may be serious. There is nothing to equal baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colic and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

## Men in Training

Fighting isn't the only duty of a soldier, and exposure to bullets is not as serious as exposure to all kinds of weather and dampness. Rheumatic aches, sore and stiff muscles, strains and sprains, chills and neuralgia, all are enemies of the soldier, and the relief for all these pains and aches is Sloan's Liniment. ## Interest in Sheep Raising

4,000 Applications for Sheep From Manitoba Farms

The announcement recently made by the minister of agriculture for the province of Manitoba that his department would expend \$125,000 on the purchase of sheep in Ontario to be sold to Manitoba farmers at cost, has already resulted in 4,000 applications being received. The department of agriculture has now announced that they will not limit the purchase to \$125,000, but it is feared that in view of the number of applications received it will be impossible for the department to supply the demand. The high price which has been received for sheep in Ontario, together with the low cost at which sheep can be reared in Western Canada, is inducing a considerable number of farmers to take up sheep raising, while those who have already made a beginning in this line are making every effort to increase the size of their herds.

## THOSE AWFUL CRAMPS

Suggestions that may save Much Suffering

Marysville, Pa.—"For twelve years I suffered with terrible cramps."

"I would hate to stay in bed several days every month. I tried all kinds of remedies and was treated by doctors, but my trouble continued until one day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for others. I tried it and now I am never troubled with cramps and feel like a different woman. I cannot praise Lydia E. Pinkham's Vegetable Compound too highly and I am recommending it to my friends who suffer as I did."

Mrs. GEORGE R. NAYLOR, Box 72, Marysville, Pa.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

MANY a farmer has been bunched into selling his stock and produce at a ridiculous figure following the blue-ruin stories of the speculative buyer or his agent. The farmer was NOT in touch with the market; the speculator WAS.

The world's market is the farmer's market. Keep in touch with it. The Herald's market reports are not only good—they are the best obtainable, and include special and exclusive features such as Poole's X-ray and forecast on the world's livestock situation. Poole is nothing short of a genius and is accepted as an authority the world over. Our Boston Letter on the wool markets is up-to-the-minute and covers all colonial and foreign markets. It is the only one published in Western Canada. The Herald's expert survey of local grain and livestock markets is drawn from actual contact with buyers and sellers and our special reporters covering every commodity that the farmer sells or purchases are compiled from accurate and reliable data.
